

## Efficient 300W Power Supply for Shuttle XPCs

The Shuttle XPC Accessory PC61J is a high-end power supply with a maximum output wattage of 300W suitable for certain Shuttle XPCs of the H, J and R series. With a low noise level, it is ideal for use in any noise-sensitive environments such as a library and offices. Thanks to its 80 PLUS Bronze certification for power-efficient devices, this power supply is also suitable for ENERGY STAR® compliant systems. Benefit from less power consumption and less energy costs using PC61J..

### Easy installation of PC61J

① Place the power supply in position. Secure from the back with three Phillips head screws.

② Feed the HDD cable through the reverse hole as shown and attach to storage devices.

③ Attach the 20-pin ATX and 2x2-pin (or 1x4-pin) power supply plugs to the mainboard.

④ Finally, secure again from top with Phillips head screw.
