

Shuttle all-in-one touchscreen PC

The Shuttle X 5000T White is an all-in-one PC boasting a 39.6cm / 15.6"-inch touchscreen LCD powered by Intel's Atom 330 dual-core processor. Intended for use in the home environment, the X 5000T features 1~2 GB of memory, a 160~500GB hard disk drive and runs Windows Vista or Windows 7. Equipped with Intel's GMA950 onboard graphics, it provides generous performance for daily computing with internet and office applications. A webcam, built-in speakers, card reader, WLAN and other features leave nothing you could ask for. Have any applications start up quickly by just touching the screen for working most swiftly and conveniently.

Shuttle X 5000T White - Special Product Features

All applications at your fingertips

The innovative touchscreen technology delivers the simplest operation possible and makes the screen the centre of action. Its high-quality design lets you control the whole range of multimedia - music, movies, video playback and web browsers start by just touching the screen.

Dual Core. Do more.

The vast majority of the existing netbooks and all-in-one PCs with an Intel Atom CPU use the original Single Core version. In contrast to this, Shuttle's all-in-one PC X 5000T stands out from the crowd with its embedded Intel Atom 330 Dual Core processor, which is boosting the productivity of the PC system, particularly with regards to multithreaded applications.

All-in-one PC

Your complete PC system with many components already built in comes in just one single device! This includes the webcam, microphone, mainboard, display, touchscreen input interface, Wireless LAN module and speakers. Saves you more space, looks simply stylish, less wiring.

Slim and chic

Designed as space-savers, this 15.6 inch all-in-one desktop PC only measures 3.6cm in depth.

Fanless power supply

External, fanless 65W power supply for whisper quiet operation

Kensington Lock

This is a small, metal-reinforced hole as part of an anti-theft system. (The lock-and-cable apparatus is not included.)

VGA Port

This VGA port can be used to connect a secondary external LCD display or beamer to the PC. It supports the clone mode operation.

Carrying handle

Cleverly, the X 5000T's stand can be pulled up to serve as a handle - easy to move and light to carry with one hand.

VESA mounting

The stand on the rear can easily be removed unveiling four VESA mounting screw holes that can be used for mounting arms and other mounting devices from a variety of manufacturers.

Shuttle X 5000T White Overview (Connectors, buttons, etc.)

- 1 Touchscreen LCD display
- 2 Webcam
- 3 Microphone
- 4 Speakers
