Elegant appearance – just 3.6 mm thin with Linux operating system

The X500VA All-in-One PC is based on the Linux operating system, energy-saving technologies and an innovative control concept. The latest version of openSUSE Linux, Intel Atom 330 dual-core processor (2x 1.6 Ghz) and a 39.6 cm (15.6") touchscreen characterise this gem which is just 3.6 cm thin. Forget about keyboard and mouse – the X500VA can be controlled with finger or stylus. A webcam, WLAN, microphone and speakers are pre-installed. Expansion with additional programme packages is possible with 1-click installation from the openSUSE website. A 24-month bring-in service is also available in a warranty case.

Feature Highlight Full featured stylish PC platform Small: 391 x 327 x 36 mm (WHL) All-in-one design Stand can also be used as a handle External, fanless power supply (65W) CPU: Intel ATOM 330 Dual Core CPU & Chipset Chipset: Intel 945GC + ICH7 2 GB DDR2 SO-DIMM memory Memory 160 GB 2.5" SATA hard disk Operating OpenSUSE Linux, powered by Novell system 39.6cm / 15.6" touchscreen (1366x768) Display & Integrated GMA950 graphics, 224MB UMA **Graphics** VGA Video output (clone mode) 5x USB Connectivity Audio: Mic, Line-in/out or 5.1 Line-out Gigabit LAN, Wireless LAN (draft-n) SD card reader 1.3 Megapixel webcam Built-in 2x 2W speakers Microphone 100mm VESA mount capable **Application** Basic, Home Media Warranty 24 months Bring-in-Service

Shuttle X 500VA Black - Special Product Features

All applications at your fingertips

The innovative touchscreen technology delivers the simplest operation possible and makes the screen the centre of action. Its high-quality design lets you control the whole range of multimedia - music, movies, video playback and web browsers start by just touching the screen.

Dual Core. Do more.

The vast majority of the existing netbooks and all-in-one PCs with an Intel Atom CPU use the original Single Core version. In contrast to this, Shuttle's all-in-one PC X 500VA stands out from the crowd with its embedded Intel Atom 330 Dual Core processor, which is boosting the productivity of the PC system, particularly with regards to multithreaded applications.

All-in-one PC

Your complete PC system with many components already built in comes in just one single device! This includes the webcam, microphone, mainboard, display, touchscreen input interface, Wireless LAN module and speakers. Saves you more space, looks simply stylish, less wiring.

Slim and chic

Designed as space-savers, this 15.6 inch all-in-one desktop PC only measures 3.6cm in depth.

Fannless power supply

External, fanless 65W power supply for whisper quiet operation

Kensington Lock

This is a small, metal-reinforced hole as part of an anti-theft system. (The lock-and-cable apparatus is not included.)

VGA Port

This VGA port can be used to connect a secondary external LCD display or beamer to the PC. It supports the clone mode operation.

Carrying handle

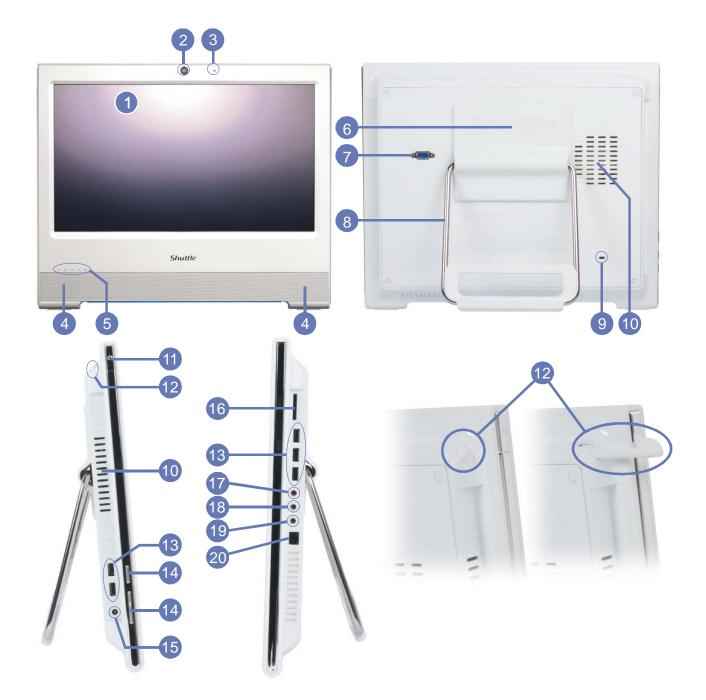

Cleverly, the X 500VA's stand can be pulled up to serve as a handle - easy to move and light to carry with one hand.

VESA mounting

The stand on the rear can easily be removed unveiling four VESA mounting screw holes that can be used for mounting arms and other mounting devices from a variety of manufacturers.

Shuttle X 500VA Overview (Connectors, buttons, etc.)

- 1 Touchscreen LCD display
- 2 Webcam
- 3 Microphone
- 4 Speakers
- 5 LEDs
- 6 VESA mount
- 7 VGA port

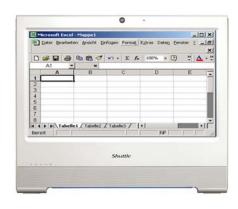

- 8 Stand (or handle)
- 9 Kensington lock
- 10 Vent holes
- 11 Power on button
- 12 Stylus pen with holder
- 13 USB connectors (5x)
- 14 LCD buttons

- 15 DC-input for power supply
- 16 Card-reader
- 17 Audio Line-in
